

## Brainstorm & Idea Prioritization Template

Date	6 March 2025
Project Name	Cryptoverse
Maximum Marks	4 Marks

## Brainstorm & Idea Prioritization Template

Brainstorming provides an open environment that encourages every team member to contribute creative ideas, leading to innovative solutions. In the **Cryptoverse** project, we aim to create an engaging **cryptocurrency tracking platform** with real-time data visualization and insightful analytics. Prioritizing **user experience**, **security**, and **market trends**, we encourage discussions that fuel innovative feature development.

Use this template in your brainstorming sessions to refine concepts, explore trends in the crypto space, and optimize user engagement for a seamless trading and analytics experience.

### Step-1: Team Gathering, Collaboration, and Selecting the Key Features

- Discuss user needs and expectations.
- Identify core features like **real-time price tracking**, **historical charts**, **news updates**, and **portfolio management**.
- Prioritize features based on market demand and feasibility.
